

Investment in Your Tax Services

Your tax return is more than forms: it's strategy, compliance, and risk management. The pricing ranges shown reflect the average investment for clients within each complexity tier.

Tax preparation is not one-size-fits-all. Fees are based on the complexity of your financial situation, required reporting, and the level of technical analysis involved.

Most clients fall within the following investment range:

Individual Tax Services

Complexity Level	Description	Average Investment
Core Complexity	W-2 income, standard investment activity, limited additional reporting	\$650 – \$900
Layered Complexity	Business income, rental properties, K-1s, multi-state filings, expanded investment portfolios	\$900-\$1,500+
Advanced & Strategic	Equity compensation, AMT exposure, multiple entities, 1031 exchanges, significant transactions	\$1,500 – \$2,500+
International & Cross-Border	Foreign earned income exclusion, FBAR, FATCA reporting, foreign entities	Custom Pricing

Because most of our clients have business activity, investments, rental properties, or multi-state considerations, the typical investment range falls between \$900 and \$1,500+.

Engagements involving multiple entities, complex compensation structures, significant transactions, or international compliance frequently exceed \$2,500, reflecting the increased technical analysis and reporting involved.

The ranges above reflect the average investment for clients within each complexity tier. The pricing ranges shown reflect the average investment for clients within each complexity tier. Final fees are determined after evaluating your specific tax situation and required reporting.

Business Tax Services

Entity Type	Scope Considerations	Average Investment
S-Corporations	Payroll activity, shareholder basis tracking, multi-state filing	\$1,500 – \$3,500+
Partnerships	Number of partners, capital accounts, guaranteed payments, K-1 allocations, state filings	\$1,500 – \$3,500+
Advanced Business Reporting	Multi-state apportionment, ownership changes, prior-year cleanup, restructuring	Custom Pricing

Business engagements involving multiple states, ownership changes, significant transactions, or accounting cleanup may exceed the ranges above. Final fees are confirmed after review of financial statements and scope of work.
